

**Nikola World Registration Opens at 9am on Dec. 3***April 16-17 landmark event to feature major unveilings for zero-emission vehicle lineups*

PHOENIX, AZ (November 30, 2018) -- Nikola World will take over the [WestWorld](#) complex in Scottsdale, Arizona for two days on April 16-17, 2019. The event will be an experience to remember, full of product unveilings, interactive experiences, live music, food and drinks, and more.

Nikola customers, investors, suppliers and media are invited to participate in the private unveiling event on April 16, with vehicle and technology demonstrations to follow on April 17. The general public is invited to participate on April 17 from 1-6 p.m. For those unable to attend, the unveiling event on April 16 will be live streamed on [www.nikolamotor.com](#).

Public registration to attend Nikola World can be made via [www.nikolamotor.com](#) beginning **December 3, 2018 at 9 a.m. MST**. All the activities will be free, but space is limited. Reservations are accepted in the order they come in. Not all registrations will be accepted due to space availability. Nikola will send a digital badge to all confirmed RSVP holders via email.

“The world has been waiting to see the Nikola vehicles in action. We will have the Nikola Two and Nikola Tre at the event, with demonstration drives of the Nikola Two. We will also showcase the production intent Nikola NZT,” said Trevor Milton, CEO, Nikola Motor Company. “In true Nikola fashion, we will have a few surprises that are sure to get you excited about a zero-emission future.”

“This is a real celebration of Nikola bringing innovation to market,” said Michael Erickson, president, Nikola Powersports. “A decade from now, I’m confident people will look back at Nikola World 2019 as a pioneering moment for electric vehicles, in both heavy-duty trucking and powersport applications, centered around a zero-emission future.”

On April 17, Nikola will host demonstrations of the Nikola Two and offer a passenger riding experience in the Nikola NZT, allowing guests to experience these vehicles in action on the road and in the dirt. Key executives, technical engineers and suppliers will also be on site to discuss the technology behind Nikola’s products in a variety of workshops.

To date, Nikola has over thirteen billion dollars in pre-order reservations for its vehicles. [Ryder System](#) and [Thompson Caterpillar](#), Nikola’s sales and service providers, will also be present at the event to work on fleet and customer orders.

By 2021, limited production of the Nikola Two will begin followed by full production in 2022. By 2028, Nikola plans on having more than 700 hydrogen fueling stations across the USA and Canada. Each station is designed to support up to 8,000 kgs of daily hydrogen production.
